

Examination Light

# Outpatient II

The perfect blend of minimal heat output and high color temperature, low-maintenance and top performance.

More physicians choose the Outpatient II than any other light for focusable flood-type light, maximum intensity and shadow-free operation. With minimal heat output and high color temperature, the Outpatient II is the perfect low maintenance, top performing light for nearly every application in the hospital or physician's office.

- Focuses with central removable, autoclavable SteriHandle
- Friction knob allows user to adjust friction on the self-balancing arm positioning to desired tension without a tool
- Cool operation ensured with heat filters and dichroic coatings
- Shadow-free operation provided by three 50-watt halogen bulbs, each with 2000-hour average bulb life
- Bulbs are wired in parallel to ensure continuous operation
- Design allows removal or replacement of SteriHandle with one hand (for ensuring sterile procedures)
